

Walking Dead: Zombie Rampage

A Two Player Shoot'Em Up Game

Two players compete - or one player challenges themselves - to see how many zombies they can shoot....and survive!

How to Play:

- Click to begin game.
- Shoot as many zombies in 30 seconds.
- Use First Aid and Grenades to enhance game play.
- Player One can play again, or a second player can jump in the fun.

Development & Technologies

Walking Dead: Zombie Rampage was coded in HTML, CSS, Javascript & JQuery

User Stories

- As a player, I want an emersive experience
- As a player, I want to become my favorite character
- As a player, I want a relentless challenge
- As a player, I want to see my points clearly
- As a player, I want easy navigation
- As a developer, I want easily expandable code
- As a developer, I want features that don't overtax computer resources

MVP

- A game of accuracy. The more accurate, the faster zombies are killed.
- Points track high scores. Winner is declared at end of game.
- Player One can continue and challenge their best score.
- Can also use the clock to enhance competitive play

Dream Features

- Adjustable timer
- Difficulty selector
- More easter eggs
- Reloadable gun and bullets
- More characters (from TV show: Saviors, Negan, Whisperers, The Kingdom, King Ezekiel)
- More levels
- Logging high scores
- Audio quotes from TV show
- Crosshair pointer
- Better zombies!
